AWP ANNOUNCES PRICE REDUCTIONS AND REDUCED LEAD TIMES ON 2500 SERIES SINGLE HUNG WINDOW

Due to our increases in capacity and greater efficiencies gained out of our ongoing improvement efforts, AWP today announces price reductions on the Series 2500 Series Single Hung Window. This is part of a larger price rationalization effort underway and we expect the majority of our products to be revised over the next few weeks.

Since its introduction the 2500 Series Impact Single Hung has established an enviable reputation thanks to its high performance for a 2-inch frame product, and its ease of installation. Its recent enhancements with the availability of Cardinal E340 Low-E performance glass reduces SHGC to .25. In addition to the lowered pricing AWP has announced reduced lead times on the 2500 Series of 3 Weeks on special order sizes and 2 weeks on standard sizes.

AWP hopes that the new pricing and reduced lead times will make the 2500 Series a viable option to even more dealers and contractors, serious about their window's performance but sensitive to budget.

We hope this price reduction further illustrates our commitment to providing our customers with outstanding value and high quality products with competitive prices.

We appreciate your business and look forward to serving you in the future.
